**Driven By Technologies**  
**That *Get Results!***

Pine tar on a bat, rosin on a ball, oil on a glove, Nutrition for Your Body - your equipment needs proper care for high performance so do YOU!

Thanks to the research and development by Mannatech Company scientists, Team Mannatech Athletes impact their performances by consuming **EM•PACT** - a PRE - event drink mix - and **SPORT** - an after exercise supplement. **EM•PACT**

eliminates the muscle fatigue and soreness of the lactic acid build-up caused by oxygen mixing with blood flow throughout your body in the first few minutes of activity. Taking **SPORT** after exercise ensures that all the muscles you worked receive proper and speedy recovery without any side affects! Test results show the **EM•PACT** and **SPORT** combo as NUMBER ONE in overall effectiveness for athletes who want to bounce back like a teenager!

Just as a ball field needs water to be playable and chalk lines for boundaries, the nutrients your body consumes and digests enhance your ability and performance level as God created it to do. **WE are changing the GAME and the way the game is being played!!!** Your body knows what it needs - with Manatech nutritional supplementation your body can be at its best when it counts the most.
